

Reference Letter

11 January 2015

To Arthur Lu (Chinese name Qingjiang Lu)

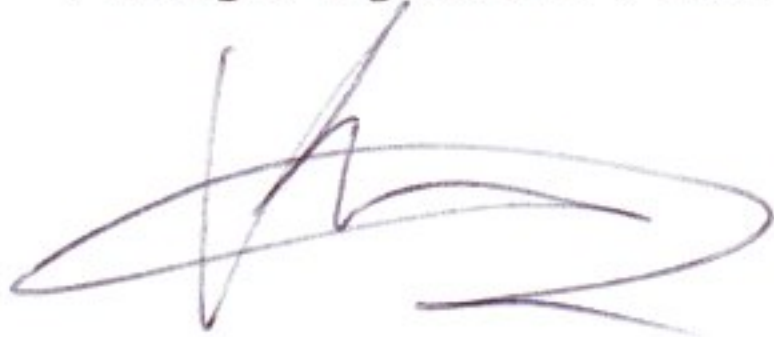

Arthur Lu was employed by Manchester&More Company as a .Net software developer from September 2014 to January 2015. He reported directly to me during this period.

Arthur was responsible to develop an inventory management system, E-commerce website and smartphone application for my company. He is an expert of .Net Framework and he used his techniques to fulfill all the tasks. Plus, one of Arthur's most outstanding qualities is his ability to break complex problems down to the core issues, and then finding smart, simple and elegant solutions.

Based on his performance, I have no hesitations in recommending Arthur for your company. Do feel free to contact me with questions or inquiries.

Yours sincerely

Manager signature: Felix Wu

A handwritten signature in purple ink, appearing to be 'Felix Wu', with a stylized, flowing script.
